

CHAPTER TWO IS COMING ...

RED RAVEN have made a great impression in the scene with their album debut, "Chapter One: The Principles," presented in 2014, and have received some excellent reviews from the European music press.

Now RED RAVEN break to new shores and will release their second album "Chapter Two: DigitHell" in 2017. Since 2015 RED RAVEN have been working on new songs and created an album that on the one hand is based on the qualities of "Chapter One". On the other hand RED RAVEN have expanded their musical horizon and prove that the band is mature and ready for a big audience.

The range of new songs reaches from low tuned metal songs to thrilling, high-melodious mid-tempo pieces and fast neckbreakers to emotional, balladesque tunes. The musical range and the themes of the compositions guarantee exciting musical enjoyment - even at the hundredth time.

RED RAVEN are more than ever a hot tip for fans of sophisticated, melodic rock and metal.
